
Become a Host Home Provider

IT'S A GREAT WAY TO STAY HOME WITH YOUR KIDS WHILE EARNING INCOME

What is a Host Home Provider?

Host Home Providers are independent contractors who provide care in their own homes to the people they support. Depending on individual abilities, Providers will assist with personal care, meal planning and preparation, medical appointments, community activities, safety skills, shopping and more.

Some Providers may continue to work a full-time or part-time job while their clients attend a day program or work in the community. Others stay home and care for their clients full time. A successful Provider is caring, honest, mission-driven, patient, a role model and teacher, has excellent listening and communication skills, and will advocate for and encourage their client to reach their life goals.
